GREATEST OF

INLAND STEAMERS

Philadelphia, Dec. 7.—The Hudson River line steamer, Washington Irving, declared to be the greatest of inland water boats ever designed, was successfully launched today from the yards of the New York Shipbuilding company n Camden. The event was attended by many persons of distinction, among them several descendants of the famous author for whom the vessel was named, and a party of girls from the Washington Irving High School in New York City. Others who witnessed the launching were Miss Helen Gould and Samuel Rea, the President-elect of the Pennsylvania railroad. The vessel was christened by Mrs. Eben W. O'leary, wife of the president of the Hudson River line.

The Washington Irving is regarded by experts as the finest modern example of marine architecture applied to vessels designed for the navigation of inland waters. The plans were drawn after a long series of experiments conducted by the architects in the great fresh-water tank at the University of Michigan. As a result of these tests the architects and engineers designed a vessel large

enough to accommodate 7,000 passengers and at the same time of a draft so small as to permit it to pass through the narrow channels and comparatively slight depth of the upper reaches of the Hudson. The steamer is 416 feet in length, the beam over all 86 feet and the depth 14 feet. Marine engineers are especially interested in the engine adopted, a three-cylinder compound inclined and direct acting, and capable of developing 6,000 horse power.

But it is the decorative features of the steamer that traditions have been cast aside—and others substituted. She will not need the name of Washington Irving displayed on her side to recall to any passenger the works of the immortal creator of Rip Van Winkle and other American classics. The main salon in the center of the vessel will reflect with historic fidelity the Alhambra of Granada, the architectural treatment and decorations being reproduced from sketches made in the Moorish palace itself. Other portions of the vessel will recall other of Irving's works, the dining salon being in colonial style, with many of the decorations being replicas of those in the Irving mansion at Sunny-Side-on-the-Hudson. The 20 staterooms are to be named after the States forming the Union in Irving's time.

New York, Dec. 7.—Just one minute after the stroke of 12 tomorrow night nearly a score of sturdy-limbed cycle riders will start on their week-long grind around the saucer track in Madison Square Garden. Pat Powers and Harry Poilock, who conducted the six-day event for more than 15 years, have retired from the game, but the new manager, John M. Chapman, the Newark promoter, has succeeded in bringing together as fast a lot of pedal-pushers as ever competed in this city. The well-known teams included in the entries are Eddie Root, of New York, and Paddy Hehir, of Australia; Frank Kramer, of New Jersey, and Jimmy Moran, of Boston; Joe Fogler, of Brooklyn, and Walter Rutt, of Germany; Oscar Egg, the long distance champion of Europe, and Andre Perchtold, the champion sprint rider of France; Alvin Loftes, of Sweden, and Angelo Gardellini, of Italy, and the Suter Brothers, of Switzerland.

The race this year is to be contested under harder conditions than ever prevailed before.

Through various changes that have been made in the rules, there will be 142 hours of riding and no time taken out for accidents to riders or wheels. Riders who "stall" for a rest when the going is hard and they are tired will be penalized for every lap they lose while off the track.

Horace Boies 85 Years Old.

Waterloo, Iowa, Dec. 7.—Many messages of congratulation were received today at the home of Horace Boies in token of the ex-governor's 85th birthday anniversary. Mr. Boies was born in New York state in 1827, but has been a resident of Iowa for 45 years. He has the distinction of being the only Democrat elected to the governorship of Iowa since the Civil war.

Reception for Mrs. Cleveland.

South Orange, N. J., Dec. 7.—Mr. and Mrs. Thomas J. Preston, parents of Prof. Thomas A. Preston, Jr., of Sells College, who is to marry Mrs. Grover Cleveland, gave a reception for Mrs. Cleveland at their residence here this afternoon. A number of guests from out of town were present at the function.

NORMAL CHAMPIONS WIN BASKET BALL GAME BY SCORE OF 19 TO 2.

Friday evening the Normal girls won a great triumph over the girls of the Shawnee High School in a hotly contested game of basket ball, the score standing 19 to 2 in favor of the Normal.

Both sides played good ball, and fouls were not as common as frequently happens. The Ada girls kept the ball in their territory most of the time and threw goal after goal amid the cheers of the large crowd that assembled in the Pontotoc building to witness the game. At the end of the first half the score stood 7 to 0 in favor of Ada. The second half added still more to the size of the score, and during this half Shawnee scored 2 on free throws for goal following fouls.

Line-Up.

Ada—Grace Rushing and Margaret Cameron, centers; Nell Robinson and Clytie Young, guards; Maud Brents and Blanche Rushing, forwards.

Shawnee—Mame Ferguson and Lella Ferguson, centers; Laura Sims and Theresa Flynn, guards; Leah Chandler and Caroline Meyers, forwards. Elaine Boylan and Adeline Wilson, subs.

IN ADA BANKS

GENERAL PROSPERITY INDICATED BY HEAVIEST DEPOSITS IN HISTORY OF CITY.

Ada now ranks among the million dollar cities of Oklahoma when it comes to bank deposits. From figures published and obtained from bank officials the deposits shown by the statements issued under call of November 26, total \$1,123,581.18.

However, one of the five banks included in the above gave only approximate figures, which may account for a slight variation of a few dollars when its statement is finally published.

As stated before, Ada now takes a front place in the matter of deposits, which for the first time passes the million mark. The deposits of the banks of Muskogee total a little over \$7,000,000, from which it will be seen that Ada compares most favorably with that city which is eight or nine times the size of this place.

Big Bankers in List.

Washington, Dec. 7.—After months spent in gathering data and compiling statistics, the House committee on banking and currency, through its chairman, Representative Fujo, of Louisiana, announces its readiness to resume on Monday the taking of testimony in the exhaustive investigation it has undertaken, with a view of discovering whether a small group of rich men has controlling grip on the finances of the country.

Under the direction of Representative Pujo and Samuel Uttermeyer, of New York, special counsel for the committee, experts have prepared an elaborate compilation of statistics embracing practically every financial and industrial institution in the country, and tracing the relation of each individual concern to other concerns. This compilation will be used as a basis for the examination of witnesses with a view to determining the exact influence exerted by New York banks and bankers on other banks and bankers throughout the United States.

Some of the hearings are to be conducted in New York and others in this city. It is understood that J. Pierpont Morgan, John D. Rockefeller, William Rockefeller, Cleveland E. Dodge and George R. Perkins will be among the prominent financiers summoned to give testimony.

The committee will endeavor first to clear up that branch of the inquiry dealing with the operations of stock exchanges and clearing house associations. Without additional powers conferred by Congress, it will be unable to complete the inquiry into the concentration of money and credits. An amendment to the banking law, which has already passed the House, would give the committee power to obtain direct information which it deems indispensable from the national banks. Unless it is given this power the committee will be unable to complete the investigation along the the comprehensive lines mapped out by Chairman Pujo.

In Memory of Gallaudet.

New York, Dec. 7.—A \$30,000 parish building for deaf mutes, in connection with St. Ann's church on West 148th street, was dedicated this afternoon with interesting exercises. The building was erected as a memorial in honor of the late Rev. Dr. Thomas Gallaudet, who was rector of St. Ann's church when he began his work among the deaf mutes of the city in 1854. He was the son of Dr. Thomas N. Gallaudet, founder of the first institution for teaching deaf mutes in America, and a brother of Dr. E. M. Gallaudet, who founded Gallaudet College for deaf mutes in Washington.

DANCES FOR THE PARENTS

Hurdy-Gurdies With Old Peasant Tunes Cause Delight in New York's East Side.

Not long ago a picturesque experiment was made by a number of men and women who are interested in the welfare of the lower east side. As folk dancing has proved so popular with the children of the foreign residents of the city, as shown by the eagerness with which they have taken up the dancing lessons given in the public schools, the interested men and women decided that their parents might also be pleased with the opportunity of joining in some of the peasant dances with which they were familiar in their youth in the fatherland. With this idea in mind, a number of hurdy-gurdy players were persuaded to put into their machines records of the old native dance tunes to which the residents of the east side had been accustomed to dance at home.

Of course the records had first to be made, but this was done and a number of the hurdy-gurdies equipped in this manner were started on a triumphant career.

And were they successful? Well, it wasn't a question as to that. With the first sound of the well known strains the men, women and children of the east side came tripping out of their houses mad with delight and breaking into their native steps the minute they reached the sidewalk.

"It was the greatest success in the world," declared one of the promoters of the project. "The only trouble was that it was too successful. They blocked the streets and the sidewalks and impeded traffic so that the policemen had difficulty in getting things started again. It was perfectly idyllic in theory, but, after all, Grand street isn't a village green and it didn't really do—it wasn't possible."

Speaking of pensioning ex-presidents, it occurs to us that very few men find it anything of a sacrifice to accept the presidency when it comes their way. With a salary of \$75,000, traveling expenses to the amount of \$25,000 annually paid, to say nothing of any other expenses of keeping the White House, there is no reason why a president should ask a ticket of admission to the poor house when he goes out of office.

"No state today in our Union has received so much praise for her modern educational system as has Oklahoma; but Gov. Cruce, who should be occasion seems to demand it. In the last man to attempt their defense of the fact that in these modern days so many youngsters rule the state's progress, not alone along educational lines, than any other citizen of the state."

"Do you remember, governor, the solemn promise you made the Democratic electors of Claremore in front of the National Bank of Claremore, when you were a candidate for governor, in which you, with uplifted hand, promised that no institution would suffer providing you were elected over Joe O'Neill? And is not that promise to be kept?"

No Governor, the facts are you would appropriate a million dollars to building the capital that Oklahoma has promised to build; you would appropriate \$200,000 for a law school and \$100,000 for a medical school, but you are unwilling to give the boys and girls, who do not wish to be lawyers or doctors, the pittance sum of \$25,000 that they may be better trained citizens in their own locality. Your attitude toward the schools of the state have placed them at a disadvantage. Their continuance has been questioned by parents who wished to school their children, and fearing to take the risk of sending them where they could not complete their course, they continue to send them to schools in neighboring states—draining Oklahoma of thousands of dollars that should remain in this state; and we do not believe, governor, that you will question the fact that the schools of our state are far superior to those generally patronized outside of the state."

Flight Would Not Be Hopeless. Thomas B. Reed did not "think imperatively" to use Mr. Chamberlain's sonorous phrase, and it was dangerous to wax eloquent in his presence over American expansion.

Once, when were in the thick of our troubles in the Philippines, Mr. Reed, Mr. Choate and Mr. G. W. Smalley were guests at Ellerslie, Governor Morton's place on the Hudson. The situation was debated at length and with great freedom.

"Mr. Choate," writes Mr. Smalley in "Anglo-American Memories," "gave us in a forcible and forensic way—and no man could state a case better—the reasons for keeping the Philippines and reducing the 'rebellious' Filipinos to order."

"We all listened. No one interrupted the flow of Mr. Choate's argument.

Mr. Reed, who, as is well known, had opposed the acquisition of the islands, did not venture a word. At the end, Mr. Choate, urging that surrender was impossible, asked:

"What do you suppose the Filipinos would do if we withdrew the American troops?"

"Well," drawled Mr. Reed, "I don't suppose they would pursue us farther than San Francisco."

"That ended the discussion," concludes Mr. Smalley.—Youth's Companion.

Lure of Colonial Mirror. Gazed there ever a man in the face of an old mirror the life of which dates back to Colonial days, without seeing therein some thoughts of powdered wigs, silk brocades, charming couples dancing the minuet and bowls of punch?

Mirrors of the Colonial period have survived the ravages of years and can be found in nearly all the eastern states and Canada. It is doubtful whether any mirrors were brought to this country much before 1700, for it was not until 1670 that they were made in England, although one may be able to pick up some very old specimens in Canada, as mirror making flourished in France in the early part of the eighteenth century.

TO ENDOW KENDALL COLLEGE

The Presbyterian church of Oklahoma is opening a campaign for raising funds with which to endow Henry Kendall College, the State school of the church. It is planned for the city of Tulsa to raise \$100,000 of this amount, the church in the remainder of the state \$100,000, an additional \$300,000 is promised from parties in the East in case the \$200,000 is raised here, making a total of \$500,000 as a permanent endowment. This will place the college on an independent basis and in the front rank of Southern colleges.

By way of reducing the cost of living and at the same time dispose of a lot of bird pests, many people in Fort Worth are now eating English sparrows, which swarm the streets. Sparrow pie is said to be a most toothsome dish. As the supply of the birds is simply inexhaustible, the people of Fort Worth and elsewhere, who relish the diet, will be in a position to fight the beef trust by eating the little birds.

Each lady of the church is requested to bring one dollar; also, a free-will offering be taken. Every one cordially invited. The program follows:

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of the hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company, of New York, put out an ideal preparation if this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff, dry, itchy scalp, get a fifty-cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

LOGGING CANADA TO THE GULF HIGHWAY

Guthrie, Okla., Dec. 7.—The logging of the proposed Canada to Gulf highway was completed from Winnipeg to Guthrie last night by John C. Nicholson, of Newton, Kan., secretary of the association. The logging yesterday covered the distance from Bliss, Ok., to Guthrie, and will proceed today to Oklahoma City. Secretary Nicholson then goes by rail to Fort Worth, as the intervening roads are not in condition to be traveled, although two routes are being put in condition now, one west and south from Oklahoma City via El Reno, Lawton and Wichita Falls, Texas, and the other southeast via Norman, Sulphur, Milburn, Durant and Denison, Texas. The Red river can be crossed only at Wichita Falls and Denison at the present time.

Squirrels' Instinctive Gift. Squirrels, it is said, know how to judge distances accurately, for they seldom jump two distances alike, yet never fall to land safely when an inch too far or too short would mean disaster. And dogs run along beside horses' heels, judging accurately the safe distance, and are seldom, if ever, injured.

Four hundred teams were building roads yesterday between Perry and Red Rock, and 200 teams between Mulhall and Guthrie, he said. State Engineer Goold said he would log the road from Oklahoma City to Denison immediately.

Secretary Nicholson says he will log the road south from Fort Worth, beginning Monday morning, to Waco, where he will spend Tuesday, thence to Austin Wednesday; to San Antonio Thursday, and to Laredo, on the Rio Grande, by Saturday night. This road will be constructed before the one to Galveston, because of a lack of interest between Waco and Galveston, al-

though the line to Galveston was the first one considered. Efforts are now being made also to bridge the Red River at Gainesville, thus giving a more direct line to Dallas and Fort Worth.

Real Glory.

It may be you will fail to climb
The highest pinnacle of fame,
And down the corridors of time
May not go thundering your name.
But if a few shall some day say
The while they pause beside your
bier,

That you made rosier their way,
You will not have toiled vainly here.
You may not with the heroes stand,
Or deck with medals fine your
breast;

You may not rise to rule the land
Or conquer in a money quest,
But if, when you have passed away,
A few shall mourn you as a friend,
And "We shall miss him," sadly say,
You've all the glory earth can send.

For medals can not pierce the veil
Through which must pass the souls
of men;

Fame only is an earthly tale
Told here, but never heard again.
But if a few shall some day say,
The while they mourn beside your
bier,

That you made easier their way,
Not afraid, the Lord will hear.

The News is informed that the parties who are agitating the proposition to extend the water works to the cemetery and build a good fence around it are meeting with considerable encouragement and it begins to appear that the movement will meet with success.

Mimes, J. M. Taylor and Joe Holden returned Friday afternoon from Mineral Wells and Wolf City, Texas, where they were called by the death of W. R. King. They were accompanied home by Mrs. King, formerly Miss Ruth Taylor.

E. L. Whitmore, who worked in the News office during the early days of its existence, was a caller this afternoon. He and his father have been running a job office at Chickasha, but are moving to Lehigh, where they will establish a paper.

Although the weather was most unfavorable last evening, the DeSota was crowded with spectators who went to see Custer's Last Fight. The picture was all that was ever claimed for it. This evening the program will consist of a two-reel picture entitled "The Man They Scorned." The hero of the story was subjected to many insults and indignities, but he was a man for all that. The Starbucks will appear on the DeSota stage Tuesday night.

The Franklin Kids will once more appear at the Majestic in their popular singing, dancing and novelty acts. Three good pictures—Pals, a western story, a farce comedy entitled "Stern Papa," and Love's Messenger. A good all round program.

"Through the Flames" is the subject of a most exciting picture that will be shown at the Empress tonight. It is one of the most wonderful fire pictures ever shown anywhere. "Abe Lincoln's Pardon" is a splendid war picture.

Rev. M. B. Molloy, pastor of the First Presbyterian church, left this afternoon for Purcell, where he will preach Sunday and spend two or three days working up interest in the plan to endow Kendall College at Tulsa, the state school of the Presbyterian church.

Rev. A. W. Roach, of Antlers, pastor-at-large of Durant Presbytery, was here this week on a visit to his brother, H. B. Roach. He left this morning for Clarita, where he will preach Sunday.

For medals can not pierce the veil
Through which must pass the souls
of men;

Fame only is an earthly tale
Told here, but never heard again.
But if a few shall some day say,
The while they mourn beside your
bier,

That you made easier their way,
Not afraid, the Lord will hear.

Famous Resort at Auction.

New York, Dec. 7.—The Lakewood Hotel at Lakewood, N. J., one of the best known hotels in America, was put for sale at public auction today as a result of a dissolution of partnership. The hotel was built about 15 years ago by a group of New York capitalists, headed by Nathan Straus. More than \$1,000,000 was expended on the building and furnishings. It is rumored that the State of New Jersey may acquire the structure for a school or other public institution.

FIVE CARS OF PECANS SHIPPED

The remarkably heavy pecan crop of the present year has brought some little money to the citizens of this section. The Ada Hide and Produce Co. has purchased about 150,000 pounds already. It has shipped four carloads and will soon have the fifth ready. This represents an outlay of somewhere between \$12,000 and \$15,000.

CONFERENCE OF GOVERNORS CONDONE BLEAISE OF S. C.

Richmond, Dec. 7.—The conference of governors adopted a sweeping resolution introduced by Mann, of Virginia, repudiating the remarks of Gov. Bleaise of South Carolina, Thursday, supporting lynch law. Bleaise snapped his fingers in the faces of the other governors, declaring he cared "not one whit for what the conference did or left undone."

"Four times this morning my life has been threatened for my utterances," he said. "I was quoted yesterday as saying 'to hell with constitution.' I say now to all governors of all states and all people of the United States, what I said then."

The conference hall was thrown into an uproar. The governors of several states denounced Bleaise in very strong terms. The governors of Arkansas, North Carolina and Idaho voted against the resolution.

Pageant Typifying the Sea.

New York, Dec. 6.—Numerous theatrical managers and many of the prominent players now appearing in New York, contributed their services to the performance given at the Century Theatre this afternoon for the benefit of the Women's Titanic Memorial fund. The program, in charge of Daniel Frohman, included a gorgeous symbolical pageant typifying the spirit of the sea. Leading parts were taken by Ruth St. Denis, Julie Opp and Edith Lynn Matthison. Other features of the program were several one-act plays, performed by prominent actors.

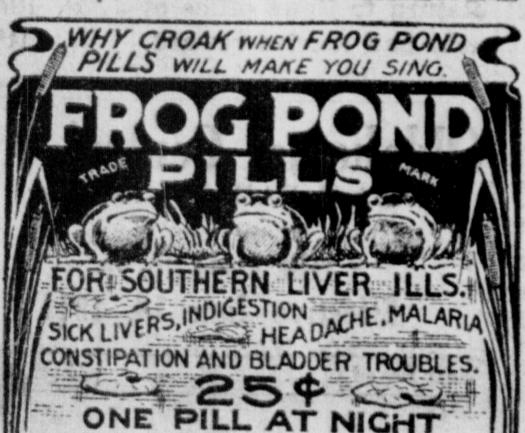

Many Attend Galveston Carnival.

Galveston, Tex., Dec. 6.—The festivities in connection with Galveston's annual carnival, given under the auspices of the K. K. K. Mysterious Order of the Ancient Seas, approached a climax today. Almost every point within a radius of several hundred miles is represented among the thousands of visitors here to view the pageants, gala performances and other events that make up the program. The arrival of four American battleships in the harbor has added to the attractions of the week.

Holmes Eligible to Retirement.

Washington, Dec. 7.—Tomorrow Associate Justice Oliver Wendell Holmes will have completed a period of ten years' service on the Supreme bench and will thus become eligible to retirement in accordance with the law. Justice Holmes is the senior member of the highest tribunal in point of age, being in his 72nd year, but he is still hale and vigorous and not likely to retire for some years to come. Should he elect to withdraw from court, however, any time before March 4, next, President Taft would be assured of one more Supreme Court appointment.

THE NEWS

CHRISTMAS AT SCHOOL FOR BLIND

It will be of interest to the public to know that already plans are underway for a happy Christmas at the School for the Blind. Last year the management of this school gave a week's vacation in which almost every form of amusement and the largest pleasure were provided for those pupils who could not or did not go home for the holidays. There will be this year another Christmas tree and a program covering the entire week, which will make the occasion memorable to every child. The public can assist the superintendent, officers and teachers of the school in their efforts to make the Christmas holidays a week of pleasure for children. Any organization, institution or individual wishing to contribute to the success of Christmas plans for the 65 pupils in the school may do so and should write the superintendent for information in any direction. There are several children who are without parents and whom to remember will be to make glad when otherwise they feel alone and neglected.

The musical ability and accomplishments of the children in the School for the Blind are generally known to be unusual. Their opportunities to hear the best music are limited. Supt. O. W. Stewart wishes to have for the Christmas holidays and for continuous use in the school a Victrola or Graphophone. Estimating the cost of a Victrola at \$75, a call has been issued to those who love music and who are friendly to the blind to be one of 15 to give \$5 each toward securing an instrument for the school. The call may as well be received by the 75 persons who will each give \$1 toward the amount required. Any one wishing to aid the plan of those who are working with the blind should address Supt. O. W. Stewart, Fort Gibson, Okla.

Col. Mosby's 79th Birthday.
Washington, D. C., Dec. 6.—Slowly recovering from a severe illness, Col. John S. Mosby, the famous Southern cavalry leader of the civil war, today quietly celebrated the birthday anniversary which leaves him only one year short of the mark of four-score years. Born at Edgemont, Va., Dec. 6, 1835, Col. Mosby was practicing law at Bristol when the war began. He was one of the first to enlist in the Confederate army, and with the exception of a short time when he was disabled by a wound, he served continuously until Lee's surrender, when he disbanded his famous troop and gave himself up, and upon the recommendation of Gen. Grant was released on parole.

At the First Methodist church tomorrow services will be held as follows:
Installation of Sunday School officers and teachers at 9:45.
Installation of stewards at 11 a. m.
Junior League at 3 p. m.
Young People's League at 6 p. m.
Preaching at 7 p. m.

Let none of the Sunday School officers, teachers and stewards be absent from the installation services. Let none think these services will be dry and perfunctory. Special programs have been prepared and you will be profited if you attend.

Tomorrow and Monday will be the occasion of the first quarterly conference for this year, and Dr. Linebaugh will occupy the pulpit at one of the hours—in the evening if I can so arrange.

The general public is cordially invited to attend all the services of our church.

THE ONLY WAY

Many Ada Citizens Have Discovered It.

Just what to do when the kidneys are affected is a question that concerns both old and young. Weak kidneys neglected in childhood lead to life-long suffering. People of advanced years, with less vitality, suffer doubly. In youth or age, languor, backache, urinary irregularity, dizziness and nervousness make life a burden.

There is one remedy that acts directly on the kidneys. Doan's Kidney Pills owe their world-wide fame to the fact that they have cured thousands of cases of sick kidneys and cured them permanently. Follow the example of this Ada citizen.

Mrs. A. White, Townsend Ave., and Thirteenth street, Ada, Okla., says: "We have used Doan's Kidney Pills in the family with such good results that I can recommend them highly, although I never used them myself. One of my family had been bothered with backache and weak kidneys. The use of Doan's Kidney Pills brought complete relief."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

STRAY TOPICS FROM LITTLE OLD NEW YORK

Bogus Prince Caught.

New York, Dec. 7.—It is not an infrequent occurrence that foreign swindlers of aristocratic manners and distinguished appearance come to this country, obtain entree in exclusive social circles by posing as members of the higher nobility of some European country and fleece their hospitable friends out of thousands of dollars before they hit the trail once more. As a rule these swindlers, even when finally found out, are not molested, but permitted to leave, because their victims are not anxious for a public exposure of their simplimindedness and gullibility and wish to avoid anything resembling a scandal. It is rather a novelty, however, if society is taken in and the general public fooled by an American, descended from a noted and respected family, who poses as a Servian Prince and collects funds for the "Balkan Allies." Fortunately the deception did not last long in this case, for the incognito of the bogus prince was disclosed before he had succeeded in getting money out of more than a few of the most credulous members of society.

New York "Mayors" Will Be There.

When President-Elect Wilson is inaugurated as President of the United States at Washington next year, the occasion will be graced by the presence of Mayor Gaynor and every one of the Honorary Mayors of the East Side of Manhattan. Under the presidency of Steinberg, Mayor of Second Avenue, the Mayors of the East Side held a meeting the other day and decided to attend Mr. Wilson's inauguration in costume and garbed in full

dress of the most up-to-date style.

Remembering his experience of last winter, when some miscreant cut off the tails of his dress coat while he was on his way to a ball in Little Hungary, Mayor Steinberg has decided to keep his new dress suit in the safe until he is ready to start for Washington.

Drowned in 2 1/2 Inches of Water.

It would seem to require either considerable determination or a combination of quite exceptional circumstances to make it possible for a man to drown in 2 1/2 inches of water. Yet a man drowned in this city the other day in 2 1/2 inches of water, neither of his own free will nor under sensational circumstances. He was bailing water from the bottom of the elevator shaft in a garage on Amsterdam avenue, became suddenly ill, fainted and fell face down into two and one-half inches of water. He was dead from drowning when he was found an hour later.

Woman Was Some Jumper.

The misfortune of the man who drowned in a few inches of water merely because insensibility prevented him from arising from the ground, forms a strong contrast to the remarkable ease of Mrs. Ida Radt, wife of one of the vice presidents of the Greenwich bank, who jumped from a height of eight stories and escaped with a few bruises. She dreamed the other night that the Hotel Orleans, on the ninth floor of which she and her husband lives, was on fire, and so vivid was the dream that she jumped out of bed, opened a window and jumped out into the light shaft, landing on the wire netting protecting the
